# Electric Power Paper Guillotine

The KW Trio 3952 electric guillotine is exceptionally well manufactured and most importantly accurate. It has proved to give years of reliable service to business from print shops to corporate and government departments who need their equipment to be first rate.

This ream guillo is perfect for cutting down SR A3 documents.

It has a cutting length of 430 mm and a cutting height of 40 mm.

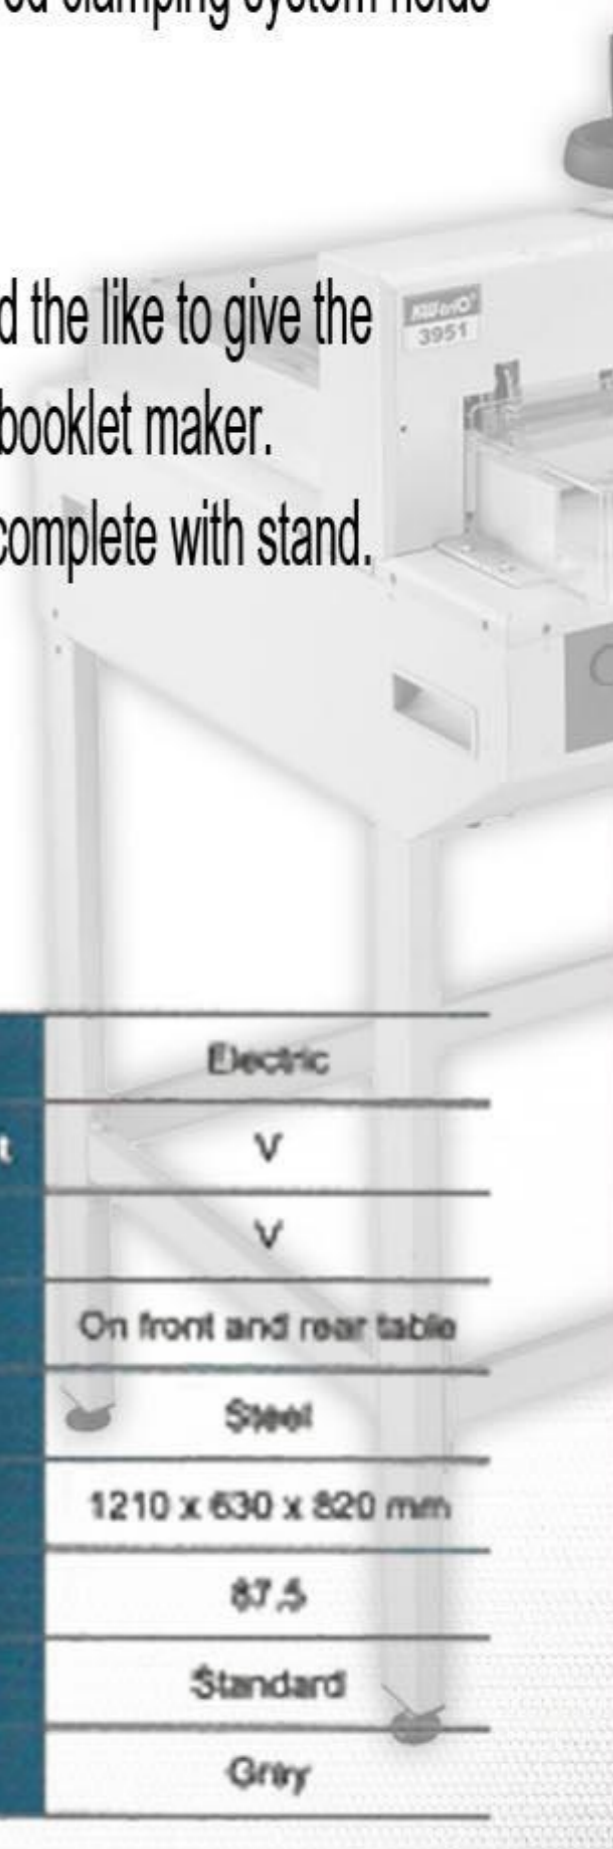

With a high quality blade made from hardened steel it is perfect for effortless cutting and fine trimming of paper stacks of up to 40 mm.

The optical cutting line assists with perfect paper alignment whilst the geared clamping system holds paper stacks firmly and securely in place for accurate cutting.

It is loaded with safety features to ensure operator safety at all times.

This machine will transform your brochures, invitations, business cards and the like to give the professional edge. This guillotine is a great companion to the BookletMac booklet maker.

Manufactured to the highest possible standard, this guillotine also comes complete with stand.
