

## Technical Data

**Quick** and **weighing only 530 g**: The REINER® 940 is a mobile inkjet printer that marks products and packaging **easily** and in the blink of an eye.

The rechargeable battery permits **up to 1,000 imprints per charge**, wirelessly and not bound to any one location. The device stores up to **four print images** that can be **switched easily** with a setting wheel. **Marking takes place by rolling** the REINER® 940 over the surface and is even possible contact free.

Clever: Since different hand movement speeds prevent perfectly even work, integrated sensors regulate ink supply **for perfect machine readable marking**.

**Integrated capping to seal the print head keeps ink from drying out** even with longer breaks between uses.
